

Ito bracket range

Ito bracket range

By extending the curve into its own design, the Ito bracket perfectly coordinates with the slender design of the Teceo luminaire and other Schröder luminaires.

The Ito range of brackets offer an aesthetically consistent approach in various environments, from urban streets to large boulevards, car parks and residential districts. Built from welded steel, it ensures flexibility and is compatible with almost any pole respecting local design guidelines.

It is made of die-cast aluminum and is available in all standard Schröder colours. Certified for the loads defined in EN40, the Ito range can be installed on poles for CE marking.

Key advantages

- Large range of brackets to suit all your needs
- A unique design that adds value to your lighting installation
- Perfectly matched to be used with Schröder luminaires
- Can be customised in all Schröder colours
- Long lasting - made from high-quality steel
- Compatible for use in EN40 calculations
